PMD Results

The following document contains the results of PMD 6.21.0.

Violations By Priority

Priority 2

labcodeinspection/Email.java

Rule	Violation	Line
BeanMembersShouldSerialize	Found non-transient, non-static member. Please mark as transient or provide accessors.	6
BeanMembersShouldSerialize	Found non-transient, non-static member. Please mark as transient or provide accessors.	7
BeanMembersShouldSerialize	Found non-transient, non-static member. Please mark as transient or provide accessors.	8
BeanMembersShouldSerialize	Found non-transient, non-static member. Please mark as transient or provide accessors.	9
BeanMembersShouldSerialize	Found non-transient, non-static member. Please mark as transient or provide accessors.	10

Priority 3

labcodeinspection/Email.java

Rule	Violation	Line
ImmutableField	Private field 'm_lastName' could be made final; it is only initialized in the declaration or constructor.	6
RedundantFieldInitializer	Avoid using redundant field initializer for 'password'	7
ImmutableField	Private field 'defaultpasswordLength' could be made final; it is only initialized in the declaration or constructor.	9
CommentRequired	Public method and constructor comments are required	12- 15
CommentRequired	Public method and constructor comments are required	17- 21
CommentRequired	Public method and constructor comments are required	24- 36
SwitchStmtsShouldHaveDefault	Switch statements should have a default label	25- 35
CommentRequired	Public method and constructor comments are required	48- 52

UseLocaleWithCaseConversions	When doing a String.toLowerCase()/toUpperCase() call, use a Locale	50
UseLocaleWithCaseConversions	When doing a String.toLowerCase()/toUpperCase() call, use	50
